<p>[Verse 1] There was a girl Broken inside I felt her pain I tried to help No one could see it She couldn't tell them Afraid they'd see her real self</p> <p>[Pre-Chorus] She kept drowning In her own thoughts Was nobody coming to rescue her?</p> <p>[Chorus] She's all alone Cold like a stone It's a dark night Will she be alright? Nowhere to go No friends or home She just wants Someone to hold Someone to hold</p> <p>[Verse 2] This is not a phase I see it in her eyes It's not an escape It's not a disguise She's hiding for so long Thinking she was wrong She's losing her mind Just please apologise</p>	<p>[Pre-Chorus] She kept drowning In her own thoughts Was nobody coming to rescue her?</p> <p>[Chorus] She's all alone Cold like a stone It's a dark night Will she be alright? Nowhere to go No friends or home She just wants Someone to hold Someone to hold</p> <p>[Bridge] Where she belongs Will she ever know? Just come along And let her know where to go</p> <p>[Chorus] She's all alone Cold like a stone It's a dark night Will she be alright? Will she be alright?</p>
